

# RACQ Solar

Trusted service, product expertise  
and end-to-end value

**RACQ**

## WHY CHOOSE RACQ SOLAR

At RACQ, we're committed to being a force for good; for today, and for the future. That means working to create a more sustainable tomorrow for ourselves, our members and the Queensland community.

RACQ Solar offers end-to-end value through our customer service, industry expertise and after sales service. We understand it's a big decision, so there's no pressure to purchase and we're here to help. Your dedicated consultant will take the time to understand your current requirements, answer any questions you have and provide you with a system recommendation that matches your energy production goals.

RACQ Solar only sells quality products so you can be confident you're buying the best. We can explain the technical aspects of your system and will provide you with an online monitoring tool so you'll know exactly how much energy you are producing. Importantly, RACQ Solar will be around to provide after-sales support long after the system is installed to ensure you're getting the most out of it.

With exceptional after-sales service and support from a brand that has been making a positive difference in Queensland for over 100 years, your home energy solution is in safe hands with RACQ Solar.

# PUT YOUR SOLAR IN SAFE HANDS

In early 2022, RACQ became the majority shareholder in the highly awarded GEM Energy to deliver RACQ Solar.

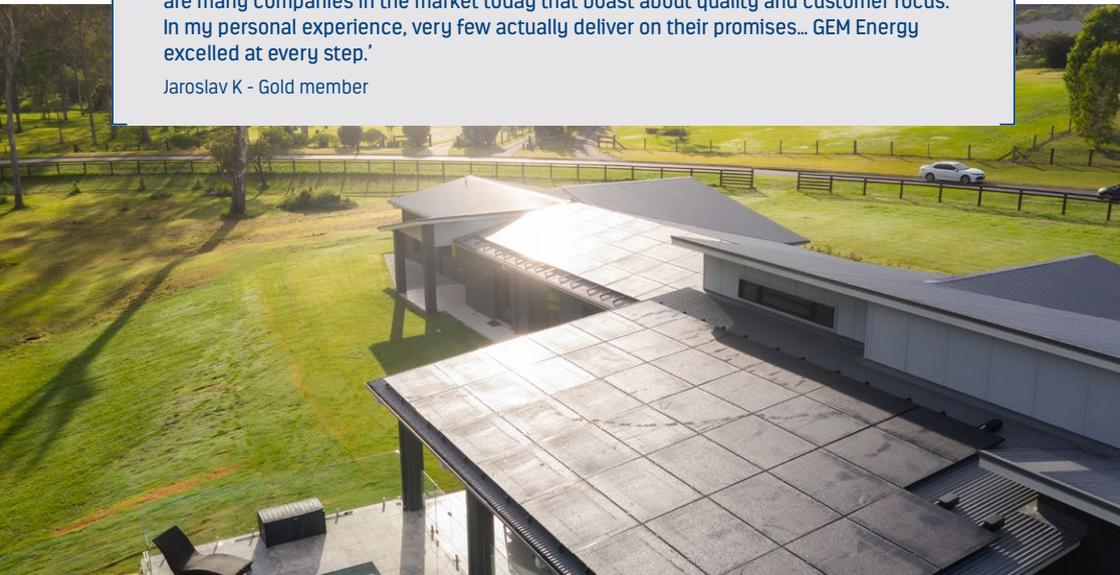

RACQ Solar offers expertise in solar and dedicated service and support for customised quality solutions. All from a trusted brand that has been making a positive difference in Queensland for over 100 years.

These industry awards were awarded to GEM Energy.

'Approached a few companies, including GEM Energy through the RACQ Magazine... There are many companies in the market today that boast about quality and customer focus. In my personal experience, very few actually deliver on their promises... GEM Energy excelled at every step.'
